

Presentation schedule of LSD & LAW 2009

| 5 Feb 2009 (Thu) | |
|------------------|--|
| 0900-0930 | <i>Registration and Opening</i> |
| 0930-1000 | Gabriel Valiente (Technical University of Catalonia) Combinatorial Pattern Matching Algorithms in Computational Biology |
| 1000-1030 | Sergio De Agostino (Sapienza University) Parallel Implementations of Dictionary Text Compression without Communication |
| 1030-1100 | <i>Coffee Break</i> |
| 1100-1130 | Mikaël Salson (University of Rouen) Dynamic Extended Suffix Arrays |
| 1130-1200 | Alexander Tiskin (University of Warwick) Fast distance multiplication of unit-Monge matrices |
| 1200-1430 | <i>Lunch</i> |
| 1430-1500 | Maria Polukarov (University of Southampton) Congestion games with faulty or asynchronous resources. |
| 1500-1530 | Ljiljana Brankovic (University of Newcastle) A Dynamic Programming Algorithm for Measuring Privacy |
| 1530-1600 | <i>Coffee Break</i> |
| 1600-1615 | Borivoj Melichar (Czech Technical University in Prague) Arbology, basic definitions |
| 1615-1645 | Jan Janousek (Czech Technical University in Prague) Subtree and Tree Pattern Pushdown Automata for Trees in Prefix Notation |
| 1645-1715 | Tomas Flouri (Czech Technical University in Prague) Tree Pattern Matching by Pushdown Automata |
| 1715-1730 | Borivoj Melichar (Czech Technical University in Prague) Repeats in trees |

| 6 Feb 2009 (Fri) | |
|------------------|--|
| 0930-1000 | Ondřej Guth (Czech Technical University in Prague) Searching Approximate Covers of Strings using Finite Automata |
| 1000-1030 | M. Oğuzhan Külekci (Turkey National Research Institute of Electronics & Cryptology) A Method to Overcome Computer Word Size Limitation in Bit-Parallel Pattern Matching |
| 1030-1100 | <i>Coffee Break</i> |
| 1100-1130 | Andreas A Albrecht (Queen's University Belfast) On the Number of Local Maxima in MAX-SAT Instances |
| 1130-1200 | Dennis Komm (ETH Zurich) Reoptimization of the TSP with Deadlines in Metric Graphs |
| 1200-1430 | <i>Lunch</i> |
| 1430-1500 | Jan Holub (Czech Technical University in Prague) Tuning BNDM with q-Grams |
| 1500-1530 | Ida Pu (Goldsmiths, University of London) Measuring energy-time efficiency of MANET routing protocols |
| 1530-1600 | <i>Coffee Break</i> |
| 1600-1630 | Colin Cooper (King's College London) Multiple random walks in random regular graphs |
| 1630-1700 | Leszek Gaśieniec (University of Liverpool) |
| 1700-1730 | Bill Smyth (McMaster University) The Prefix Array & the Prefix Graph |
